

# The Appearance of Stacked Stone Window Wells... Proven Steel Strength

**NEW**  
From Boman Kemp

**PATENT PENDING**

## Stacked Stone Well

A **Boman Kemp** Product

Boman Kemp, the industry leader in basement window systems, is proud to offer an alternative to expensive concrete composite wells. Manufactured from the same 18 Gauge steel as our standard well, the Stacked Stone™ Window Well combines beauty and strength that will please even the most discerning homeowners.

## 1 Plastic Cover

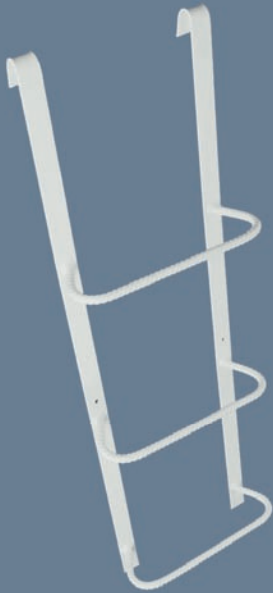

Clear plastic with wrap edge design stops rain, snow or debris from entering the areawell. **MUST BE USED IN COMBINATION WITH SAFETY GRATE.**

## 2 Safety Grate

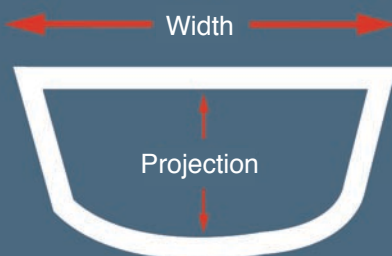

Protects against accidental fall in while still providing maximum natural light into the lower level living space. Add Plastic Cover for combination unit.

## 3 Escape Ladder

Required by building code for designated Emergency Escape/Rescue opening. Attaches to top of areawell. Holes are provided for permanent attachment. (Available in 4', 5' and 6' lengths). (Available in white or taupe).

## How to Order

Measure the width and projection of your well. Log on to [www.boman-kemp.com](http://www.boman-kemp.com) and use the dealer locator to find the dealer nearest you. They can help you with pricing and delivery.
